OUR FIRM

Gorfine, Schiller & Gardyn, P.A. (GSG) has provided value added business consulting, accounting, auditing, and tax solutions for a diverse portfolio of firms since 1934.

In today's competitive marketplace, small to mid-sized businesses face many of the same challenges as their larger counterparts. However, they don't always have the same internal resources to face these challenges. Successful firms must learn to "do more with less". GSG's Business Consulting Team can help you do just that by meeting your consulting needs without adding to your internal staff. Our Team of experienced consultants will work with you to analyze your business challenges and requirements, while designing and implementing an efficient and cost effective solution to meet your needs.

BUSINESS CONSULTING WITH TANGIBLE RESULTS...

GSG's Business Consulting Team prides itself on its results driven solutions. At the beginning of each engagement, we work with our clients to define quantifiable measures of success to ensure that we meet or exceed our client's expectations. We understand that our clients engage us as subject matter experts and commit ourselves to delivering current state-of-the-art solutions.

We understand that our success as a firm is dependent upon our success with each individual client.

OUR BUSINESS CONSULTING TEAM IS PREPARED TO ASSIST YOU WITH...

EXTENSIVE EXPERTISE & COMMITMENT

Benjamin Franklin said, "Well done is better than well said." To this end, Gorfine, Schiller & Gardyn, P.A. demonstrates its commitment to Business Consulting not just by words but by our actions. Some of these include:

■ Team Member Knowledge

Our Team of professionals are credentialed and trained in the most current consulting methods and participate in continuing professional education seminars and classes. Our commitment to training provides our clients the benefit of the highest degree of knowledge in the industry.

■ Research and Technology

Our Team uses the latest research techniques & technology in every consulting engagement. Utilizing current industry methodologies, we are able to offer our clients more meaningful information in a more cost-effective manner.

■ Strategic Alliances

Our Team has established several strategic alliances with 'best of breed' application service providers and software application suppliers to ensure that we provide a comprehensive state-of-the-art solution for our clients.
